

## Forest Hike Checklist: Other Interesting Finds

| ✓ | Photos  | Description  |
|---|---|--|
|   |    | <p>Look for a plant that has red berries on it. The first photo shows a mock strawberry. It looks like a strawberry, but is not sweet. The second photo is of red baneberry. Please do not eat any berries that you do not know.</p>   |
|   |    | <p>Look for animal signs such as footprints, scat, or fur. See if you can identify the animal. Left to right: moose print, moose scat, and a photo of a moose taken through the windshield.</p>  |
|   |    | <p>Look for moths or butterflies as you hike. The butterfly in this photo is an Eastern Tiger Butterfly. To help you identify butterflies, try this link:<br/> <a href="https://extension.umaine.edu/publications/7151e/#common">https://extension.umaine.edu/publications/7151e/#common</a></p> |
|   |  | <p>Can you find wildflowers along or near the trail? Do you know their names? The first photo is of Oxeye Daisies and the second is of Blackeyed Susans. See what you can find.</p>  |
